

SSC/HSSC Virtual Session November 2020

Dear Parents,

As you all know the educational institutions have temporarily been closed in an attempt to contain the spread of the COVID-19 pandemic.

COVID-19 has disrupted education worldwide in an unprecedented way. Millions of students have not been able to continue learning however we do know that in prevailing situation learning is indeed at lost and being an educationist, we try our best to minimize this loss.

When children lose out on education, they lose out on future opportunities including economic benefits with far-reaching consequences. Some modeling suggests that the loss of learning during the extraordinary systemic crisis of World War II Still had negative impact on former students lives some forty years later. And neither is the impact of lost learning confined to the individual level: For whole societies closing down education today, there will likely be significant consequences tomorrow.

So, to combat the extreme situation, as always RISC is committed to giving support and resources to our valuable students to mitigate the impact of school closures on the education and to continue the momentum of the classroom through remote learning from Montessori till University qualification. Students continue to learn through the use of personal devices, by logging on to (LMS) Learning Management System, MS TEAMS, and other digital media to get online instruction and digital resources to ensure uninterrupted instructions.

Let us use this crisis to tackle the challenges that are already staring us in the face and give our best to ensure that nothing can stop us from achieving our GOALS.

Wish you all a healthy and energetic life.

Stay tune to our official website for further updates.
